Here is Table 4 soils. Good luck with DPH. I will be driving for about the next 1.5 hour and not responsive to e-mails.

Thanks.

Could you provide an up to date soils spreadsheet with the RSLs? I need to send it to our toxicologist. DPH won't let go.

Michelle,

Here is the summary of START/ERRS ops July 1 – 11. Please note I carried over some of the format and numberings used in POLREP 6 for consistency, but I'm uncertain of some of the totals they were using (such as the total number of parcels adding up to 19, which I thought was 17) – I highlighted those numbers. Also this summary does not include

progress made by UC, CIC's, etc. Let me know if there is more detail needed.
